LinkedIn : [linkedin.com/in/vivek-singh-baghel-62346a215](https://www.linkedin.com/in/vivek-singh-baghel-62346a215)

PROFILE SUMMARY :

Highly motivated and skilled Front-End Developer with 1.8 years of hands-on experience in developing and maintaining dynamic web applications using React.js. Proficient in modern JavaScript (ES6+), HTML5, and CSS3, with a strong understanding of component-based architecture and state management using Redux. Demonstrated ability to collaborate effectively within agile teams, consistently delivering high-quality, user-centric solutions.

EDUCATION

Bsc (Computer Science) <i>The Sun Institute Of Pharmaceutical Education</i>	2021 - 2024
Higher Secondary <i>Maa Mangla Devi Vidhya Peeth School</i>	2019 - 2020

SKILLS

Language	JavaScript , HTML , CSS , TypeScript
Frameworks & Libraries	React Js, Next js (Basic) , Node js (basic)
Libraries	Redux , Hooks , Redux-Toolkit
Operating System	Window , Linux
VCS	GitHub

EXPERIENCE

Jr. React JS Developer at Zeeweessoft	Dec 2022 - 2024
<ul style="list-style-type: none">Developed and maintained responsive web applications using React.js, enhancing user experience through dynamic and interactive features.Implemented state management solutions using Redux to handle complex application states, ensuring data consistency and scalability.Utilised modern JavaScript (ES6+), HTML5, and CSS3 to create reusable components, improving code maintainability and development speed.Integrated third-party APIs and libraries to extend application functionality, ensuring compatibility and adherence to best practices.Debugged and optimised application performance, achieving significant improvements in load times and responsiveness	

PROJECTS

Sport Clouds	https://sportscloud.in
Developed the "Sport Cloud" web application for booking cricket turfs. Created user-friendly interfaces with React.js and managed state efficiently using Redux. Integrated RESTful APIs for smooth front-end and back-end	

communication. Collaborated with backend teams on API requirements and troubleshooting. Utilised Chart.js for interactive data visualisations and worked with cross-functional teams to ensure project alignment and delivery.

Technologies used - JavaScript , React js , MUI

Auction

<http://goldfactory.ae:7000>

Developed and maintained an "Auction" web app for bidding on jewellery items (gold, silver, diamonds, platinum). Utilised React.js for dynamic UIs and integrated WebSocket for real-time updates. Managed state with Redux and ensured code quality through reusable components and regular reviews. Collaborated with backend developers to design efficient database schemas and optimise API performance.

Technologies used - JavaScript , React js , Next Js , TypeScript

Makks

<https://makksdehydrators.com>

Developed and maintained the "Makks" web application for vendors to purchase and process products like tomatoes and carrots into juices and other items. Designed user-friendly interfaces with React.js, integrated quality and quantity control modules, and ensured high code quality through reusable components and regular code reviews.

Technologies used - JavaScript , React js , MUI

Hafkids (Desktop)

<https://cl.hafkids.com>

Developed and maintained the "Hafkids" web application, offering online study resources for Muslim students (nursery to 3rd grade) through video content. Enhanced the admin panel for efficient management of videos, student data, and course materials, using React.js for user-friendly interfaces. Created RESTful APIs for video uploads, course creation, and user authentication. Ensured application stability, data integrity, and security through thorough testing and debugging.

Technologies used - JavaScript , React js
